Checking out Library books during CDL:

Library books may be checked out during distance learning one of two ways:

WebEx Meet

WebEx is the platform that our district uses to have virtual meetings with students. Your teachers will have a link within their classroom which allows you to access WebEx directly. If for some reason you aren't able to access your teachers WebEx through their classroom, try using the app on the home screen of your iPad.

The app looks like this ------

Once you open the app and sign in, click on "Join Meeting". You will be prompted to enter a WebEx URL. The format used for WebEx URL's is as follows: https://bls.com/meet/firstname.lastname

> For example, the WebEx URL for Susie Prentice would be: https://bls.com/meet/susie.prentice

Gmail

Students use Gmail to communicate with their teachers. There is a Gmail app located on the home screen of your iPad. It's important that you are checking your Gmail account frequently as this is the preferred method staff and admin use to communicate with you. You may miss important announcements or information if you don't check your Gmail account on a regular basis. It is important that you communicate with your teachers through Gmail if you are having issues with any of the functions within Canvas that would prevent you from turning in completed work, attending WebEx meetings, or posting your attendance.
