

BEND-LA PINE SCHOOLS

Administrative School District No. 1

Deschutes County, Oregon

ADMINISTRATIVE REGULATION

Name: Indoor Air Quality (IAQ)

Section: Support

Code: EBAD-AR

Indoor Air Quality (IAQ)

The school district recognizes that a safe and healthy school environment is important in contributing to the health of students and adults. Clean indoor air is essential to creating a healthy learning environment for students to participate in the educational process.

Staff will make efforts to maintain good air quality in all of the district buildings. The superintendent / designee will monitor district buildings for indoor air quality problems which include but are not limited to mold, pollutants, lead and poor ventilation. When problems are identified, the superintendent / designee will take appropriate steps to address and solve them.

The district's goal is to improve indoor air quality during new construction and while making repairs, renovations and maintenance to existing facilities. When reviewing bids of this nature, consideration will be given to those contractors who incorporate good indoor air quality into their design plans.

IAQ Coordinator

The superintendent will appoint the maintenance supervisor as the IAQ Coordinator. This person will be in charge of the implementation of the district IAQ Management Plan. When issues arise, the IAQ Coordinator will investigate and will devise a plan to solve and correct the problem.
