EDUCATING THRIVING CITIZENS

INTRODUCTION

"The progress of the world depends almost entirely upon education."
-George Eastman

April 14, 2020

Budget Committee Members and Bend-La Pine Schools communities:

As I sit down to write this budget message, amid a global pandemic, I am struck that what's considered 'normal' is continuously changing for our families, staff, students and community. Yet, during all of this change and uncertainty, one thing remains the same: Our students and staff are exceptional. Our community is coming together to support one another and we continue to deliver meaningful education to our students. This experience is testing all of us, but it also serves as a strong reminder that we are a resilient community and there is no place I would rather call home.

It's been a month since our schools closed their doors and our once bustling hallways, playgrounds and classrooms have gone quiet. But the work of our education continues beyond those school walls. Our schools are continuing to engage, teach and connect with students every day. Today, we hear laughter and learning across phone lines and computer screens. We are resilient and will persevere through this crisis, as we support one another and grow stronger together.

The following budget is written and delivered in the midst of a public health crisis, which creates a level of uncertainty about what impact COVID-19 could have on Oregon's economy and funding for local schools.

The proposed budget meets the requirements of Bend-La Pine Schools Board Governance Policy BDGOV A.3 Financial Planning and Budgeting, reflects the efforts identified in our Strategic Plan, and maintains a 5% ending fund balance.

We thank you for your continued support of Bend-La Pine Schools' students and staff.

Sincerely,

Shay Mikalson, Superintendent

Bend-La Pine Schools

Bend-La Pine Schools Outline of Budget Process Fiscal Year 2020-21 Adopted Budget

- 1. Appoint a Budget Officer The School Board appointed Shay Mikalson as the Budget Officer by Resolution 1886 on August 6, 2019.
- 2. Prepare the Proposed Budget Completed by first budget committee meeting on April 14, 2020.
- 3. Publish Notice of Budget Committee Meeting, twice Published March 27 on website and April 2 in Bend Bulletin.
- 4. Budget Committee Meets Initial meeting is April 14, 2020, 5:00pm. Can meet as often as needed, no publication requirements after the first meeting.
- 5. Budget Committee Approves Budget Budget Committee can make changes to the proposed budget. Once satisfied with the budget, a motion is made to approve the budget and approve the property tax rate for the general fund and the property tax amount for the debt service fund. Approved budget now goes to the School Board for adoption.
- 6. Budget Summary and Notice of Public Hearing is Published A financial summary of the approved budget and a notice of budget hearing must be published between 5 and 30 days before the hearing (scheduled for June 9).
- 7. Budget Hearing Held Held by the School Board to listen to citizens' testimony on the approved budget. Additional hearings may be held.
- 8. Budget adopted, appropriations made, taxes declared and categorized Before adoption, the School Board may make changes to the budget approved by the Budget Committee, subject to certain limitations:
 - a. Taxes may not be increased over the amount approved by the budget committee.
 - b. Estimated expenditures in a fund cannot be increased over the amount approved by the budget committee by more than \$5,000 or 10 percent, whichever is greater.

These limitations cannot be exceeded without first publishing a revised financial summary and holding another budget hearing.

After the hearing and after considering relevant testimony, the School Board adopts the budget (no later than June 30, scheduled for June 9). By resolution, the School Board adopts the budget, makes appropriations and levies and categorizes tax.

9. Certify Taxes – Property tax rate and general obligation debt service amount are certified to the County Assessor. In addition, a copy of the adopted budget and the tax certification forms are submitted to the High Desert Education Service District and the Oregon Department of Education.

Bend-La Pine Schools – Building the FY2020-21 School Year Proposed Budget

This narrative provides the reader of this budget document insight into how Bend-La Pine Schools' proposed budget is built, including major assumptions used. Of course, everything we do has students at the center, including our annual budget. The annual budget is one of many tools employed to help move forward to accomplish the eight ends identified by the School Board in the District's Comprehensive Plan.

The district's budget is a planning tool that matches the financial, material, and human resources available with requirements to meet the school board's goals and strategies. The budget is the result of many different planning processes that determine the direction of the district. The district annually prepares a budget in accordance with requirements prescribed in Oregon's local budget law (Chapter 294 of the Oregon Revised Statutes), which establishes standard procedures for preparing, presenting, and administering the budgets of Oregon's local governments. Local budget law encourages citizen involvement in the budget process before its final adoption. Building the proposed budget includes estimating revenues, expenditures, and proposed taxes; and provides a method for control of resources/revenues and requirements/expenditures of public funds.

Building the proposed budget involves making assumptions to estimate what resources are available and how those resources will be used. While the budget process is an ongoing cycle, the annual process generally starts in December when estimates for the next fiscal year are submitted to the Oregon Department of Education, and ends with the adoption

of the budget by the Board before July 1, the start of the new fiscal year.

Oregon's biennial budget cycle is a significant part of the assumption making process. In years that the State Legislature is creating the State's biennial budget, often we are left to make informed guesses as to the level of funding in the state school fund. In the off years, the funding is somewhat more certain. Another factor in the assumption making process is the status of our contracts with employees. In years that we are in discussions with the employee associations, the assumptions are much more fluid and more challenging to integrate into the budget assumptions.

FY2020-21 is the second year of the 2019-21 biennium. This provides some certainty to projecting our formula revenue as the State School Fund component of the formula is known. In addition, the District and employee associations will be in year two of a two-year agreement on compensation. This allows us to better project costs of salaries and benefits, by far the largest budgeted expenditure each year.

At the time this budget is being prepared the economic effects of the COVID-19 pandemic are uncertain. The severity and duration of the economic downturn is still an open-ended question and will be for some time.

Effective budgeting requires valid information about the accurate costs of serving students and the outcomes produced for students.

Bend-La Pine Schools Profile

Bend-La Pine Schools is the fifth largest school district in the State of Oregon. Located entirely in Deschutes County, the District covers approximately 1,700 square miles serving Bend, La Pine, Sunriver and surrounding communities. The District was formed in 1961 as the result of an election that consolidated five school districts.

Bend-La Pine Schools serves more than 18,600 students in kindergarten through grade twelve and currently operates nineteen elementary schools, seven middle schools and seven high schools.

How do we build the annual budget?

Oregon Local Budget law requires a balanced budget. The two sides to the budget equation are resources and requirements.

Resources (revenues) = Requirements (expenditures)

Student enrollment is the primary variable on both sides of the budget equation. Oregon's state funding formula uses student enrollment as the main driver and enrollment is used extensively for staffing decisions.

School budgets are organized according to the classification of accounts in the "Oregon Department of Education's Program Budgeting and Accounting Manual for School Districts".

According to ODE, these are considered program budgets.

Chart of Accounts - Framework

Oregon Budget Law (ORS 294) specifies a process and format for a district's annual budget preparation and presentation. The Oregon Department of Education, through the administrative rule process, adopts a chart of accounts that is used to classify revenues and expenditures. These account codes are approved by the Oregon Department of Revenue.

The accounting code structure is designed to provide consistent classification of expenditures to allow valid spending comparisons among schools and districts. The Program Budgeting and Accounting Manual is written to approach conformance with Generally Accepted Accounting Principles (GAAP), a uniform minimum standard of, and guideline for, financial accounting and reporting. Account classifications are designed to provide meaningful financial management information to its users.

Achieving consistency in budgeting and financial reporting enhances our ability to present a clear picture of the district's financial condition. Financial information that is consistently presented in a simple and straightforward format will be readily understood by the public, and provide a sound basis for decision-making.

In governmental accounting systems and for budgeting purposes, the district's financial structure is built by funds, a fiscal and accounting entity with self-balancing accounts set aside to carry on a specific activity or to meet certain objectives in accordance with a specific regulation. The General Fund is used for everyday operations. The most common reason for establishing a special fund is to account for a revenue source whose use is limited to a particular kind of expenditure. Other fund types include Special Revenue, Long-Term Debt Service, Capital Projects and Trust Funds.

The proposed budget document uses the account classification system prescribed by ODE. The proposed budget classifies two basic types of financial activity within funds: (1) resources/revenues and (2) requirements/expenditures. For each type of transaction, the specific account code is made up of a combination of classifications called dimensions. Each dimension describes one way of classifying financial activity. The dimensions used in the proposed budget are:

Resources/Revenues:

Fund: xxx Source: xxxx

For example, revenue from the State School in the General Fund would be classified as 100 – General Fund and 3101 – State School Fund.

Requirements/Expenditures:

Fund: xxx Function: xxxx Object: xxxx

For example, expenditures for the salary of a first grade school teacher in the General Fund would be classified as 100 – General Fund, 1111 – Primary, K-3 Programs and 0111 –

Licensed Salaries.

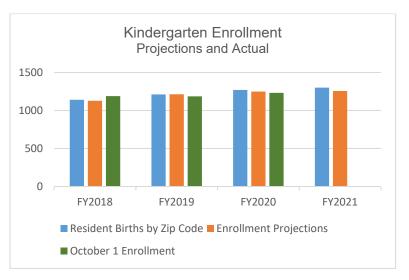

Student Enrollment

The district's budgeted resources and requirements are based on student enrollment. A major component of the district's State School Fund allocation, the primary source of funding, is calculated on the basis of the number and type of students enrolled. The FY2020-21 projected enrollment for Bend-La Pine Schools is 18,914, an increase of 242 students,

compared with enrollment of 18,672 on October 1, 2019. This is about a 1.3 percent increase.

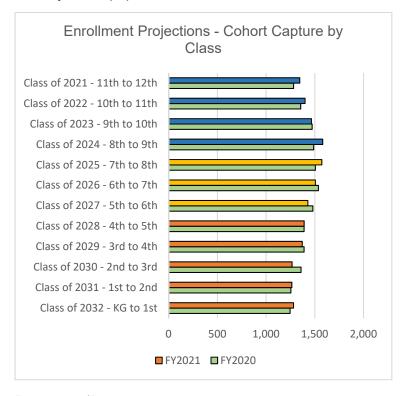

Enrollment projections are further refined by grade and school. To accomplish this, the District develops annual enrollment projections using two types of information – birth rates and cohort survival rates.

Kindergarten projections are generated using birth rates and the district's "capture" rates of eligible births in Deschutes County. For FY2020-21 the kindergarten class is projected to be 1,256, an increase of 7 students compared with the FY2019-20 projection. The FY2020-21 kindergarten projection was reduced by 40 students from the birthrate data based on the actual FY2019-20 enrollment.

Cohort capture is a commonly used demographic technique that looks at the number of students in a given grade (called a "cohort"), and determines how many of those students will move up to the next grade or school level. Cohort capture in a

given area is affected by in- and out-migration of families in response to economic climate, the type of housing available (i.e. single-family units vs. multiple-family units) and general mobility of the population.

Resources/Revenues

In the FY2020-21 proposed budget, more than 97 percent, approximately \$185,600,000, is determined by the State School Funding Formula. The State School Funding Formula is designed to equalize funding for K-12 education across school districts and education service districts. Bend – La Pine Schools is essentially funded at the same amount per student as Redmond, Sisters, or Portland.

The State School Formula is comprised of state appropriations, local property taxes, county school funds, common school fund and a few other miscellaneous items. Local property tax rates are permanently set in statute and the permanent rate for Bend-La Pine Schools is \$4.7641 per \$1,000.

In the 2019-21 biennium, the State School Fund was allocated 49/51 between the 1st and 2nd year of the biennium. This is a good place to remind the reader of how the state school fund formula works. The state appropriation amount is adjusted for any changes in the funding from property taxes, common school fund or county school fund (local resources). That formula looks like:

Local resources

- + State appropriations
- = Total funding from the State School Formula

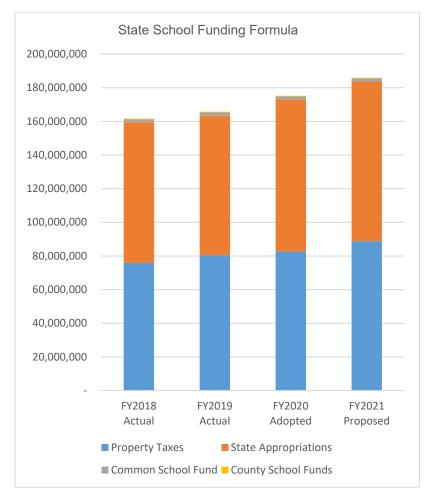

Local resources +1

- + State appropriations -1
- = Total funding from the State School Formula

Local resources -1

- + State appropriations +1
- = Total funding from the State School Formula

The calculation of the State School Formula includes "Average Daily Membership – Weighted" (ADMw) and the cost of student transportation. As you can see in the following chart, there is an increase in funding in FY2020-21 compared to FY2019-20. This is a result of increasing enrollment and higher student transportation costs.

Following is a little background on the "Average Daily Membership – Weighted" (ADMw) used in the State School Fund Formula. ADMw measures the variations of student enrollment as students enter and exit our schools. One of ODE's enrollment benchmarks for student enrollment is the number of students enrolled on October 1 of a given school year. That enrollment benchmark is at a single point in time

compared with ADMw that is more of an average enrollment over the school year. For example, if a student attends one of our schools for the first semester and withdraws in the second semester and enrolls in another district, we would receive half of the annual funding for that student. The weighted portion of ADMw is designed to allocate additional resources for students requiring more intensive services, such as students on an individualized education plan (IEP), students in poverty, and students where English is not their first language. Student transportation costs are part of the formula and the transportation reimbursement rate for Bend-La Pine Schools is 70 percent of approved costs.

Other resources in the General Fund Operations Subfund include pass-through funds from the High Desert Education Service District, investment earnings, indirect charges to grants, and expenses reimbursed by others. The ending fund balance from the previous year is also included in resources available for the current year.

Requirements/Expenditures

Oregon Budget Law (ORS 294) specifies the format for a district's annual budget presentation by program. Programs, also referred to as functions, are groups of activities to accomplish a major service. In the General Fund Operations Subfund the functions include:

1000 - Instruction

Activities dealing directly with teaching of students. Teaching may be provided for students in a school classroom, in other locations such as a home or hospital, or in other co-curricular learning situations.

2000 - Support Services

Administrative, technical, personal (such as guidance and health) and logistical support to facilitate and enhance instruction.

3000 – Enterprise and Community Services
Programs where the costs of providing goods or services to
the students or general public are financed or recovered
primarily through user charges and community programs.

4000 – Facilities Acquisition and Construction Used for the acquisition of land, new building construction, major remodeling, installation or extension of service systems, equipment and other site improvements.

5000 - Other Uses

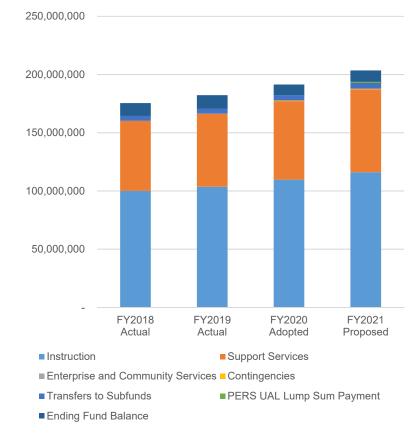

Activities in this classification include current debt service payments and transfers between funds.

6000 - Contingency

Appropriations for expenditures which cannot be foreseen and planned in the budget process because of an occurrence of an unusual event.

7000 – Unappropriated Ending Fund Balance An estimate of funds needed to maintain operations of the school district from July 1 of the ensuing fiscal year and the time when sufficient new revenues become available to meet cash flow needs.

General Fund Operations Requirements/Expenditures by Function

In the budget document the General Fund Operations Subfund reports are compiled using function and object dimensions. For example, the Budget Summary Worksheet is presented at a detailed function level with object codes and the Budget At A Glance Summary Worksheet is presented at object code levels.

Major object code levels include:

0100 - Salaries

Amounts paid to employees of the district who are considered to be in positions of a permanent nature or hired temporarily.

0200 - Associated Payroll Costs

Amounts paid by the district on behalf of employees including payroll taxes, PERS and health insurance.

0300 - Purchased Services

Services which, by their nature, can be performed only by persons or firms with specialized skills and knowledge. Services include architects, engineers, auditors, lawyers and consultants.

0400 - Supplies and Materials

Amounts paid for material items of an expendable nature that are consumed, worn out, or deteriorated by use; or items that lose their identity through fabrication or incorporation into different or more complex units or substances.

0500 – Capital Outlay

Expenditures for the acquisition of fixed assets or additions to fixed assets. They are expenditures for land or existing buildings; improvements of grounds; construction of buildings; additions to buildings; remodeling of buildings; initial

equipment; additional equipment; and replacement of equipment.

0600 - Other

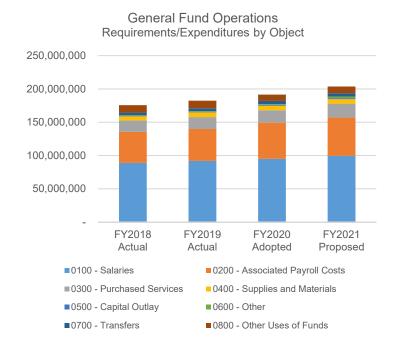

Amounts paid for goods and services not otherwise classified above. This includes expenditures for the retirement of debt, the payment of interest on debt, and the payment of dues and fees.

0700 - Transfers

This is an accounting entry used to move monies between funds.

800 - Other Uses of Funds

Amounts set aside for operating contingencies for expenditures or reserved for the following year (ending fund balance).

Personnel costs are by far the biggest part of the budget and, in this regard, the FY2020-21 Proposed Budget looks very similar to the FY2019-20 Adopted Budget.

FY2021 Proposed

- Salaries and Associated Payroll Costs
- Purchased Services
- Supplies and Materials
- Capital Outlay, Other and Transfers
- Contingency and Ending Fund Balance

FY2020 Adopted

- Salaries and Associated Payroll Costs
- Purchased Services
- Supplies and Materials
- Capital Outlay, Other and Transfers
- Contingency and Ending Fund Balance

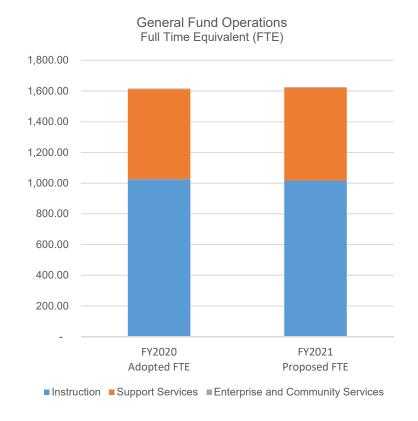

As you would expect, personnel costs are by far the biggest piece of the budget, about 85 percent. Personnel costs include salary as well as the "load" that comes with salary costs. The load includes: PERS, payroll taxes, health insurance, and worker's compensation insurance. PERS, payroll taxes and worker's compensation are statutorily mandated.

A significant portion of the district's workforce is allocated based on student enrollment. For example, the target class-size in the 1st grade is 22 students to one teacher. Each grade has a class-size target as shown in the following chart:

	Teachers	
0 1	D (Average Class-
Grade	Ratio	Size Target
KG-1	22.0 : 1	22.0
2nd	24.0 : 1	24.0
3rd	27.0 : 1	27.0
4th - 5th	31.0 : 1	31.0
6th - 8th	26.2 : 1	30.6
9th - 12th	29.1 : 1	34.0

Grade	Ratio	
6th - 8th	300 : 1	
9th - 12th	372 : 1	

The FY2020-21 proposed budget includes 1,625 full-time equivalent (FTE) staff members, an increase of about 8.7 FTE. The increase in FTE includes instructional and support staff for increased student enrollment.

The following schedule shows a breakdown of FTE along with the basis of the allocation:

General Fund Operations Subfund FY2020-21 Proposed Budget - FTE by Function

Function	Method of allocation	FTE	% of Total
Schools - teachers, counselors, ed assistants, principals and support	Number of students	1,021	62.8%
Special Programs	Formula based on student need	266	16.4%
English as a Second Language	Number and location of students	20	1.2%
Alternative Education Programs - BLS Online and other programs	Number of students and need	12	0.7%
Instructional Support	Level of support	17	1.0%
Family Access Network	Need - most are funded through other sources	5	0.3%
Custodial Support	Building square feet	85	5.2%
Transportation of Students	Ridership and location	102	6.3%
Facility Maintenance	Building square feet and square feet of turf	38	2.3%
Information Technology	Number of facilities, staff and students	26	1.6%
Board, Supt, Business, HR,			
Purchasing, Distribution Services	Number of students and staff	33	2.0%
Total		1,625	

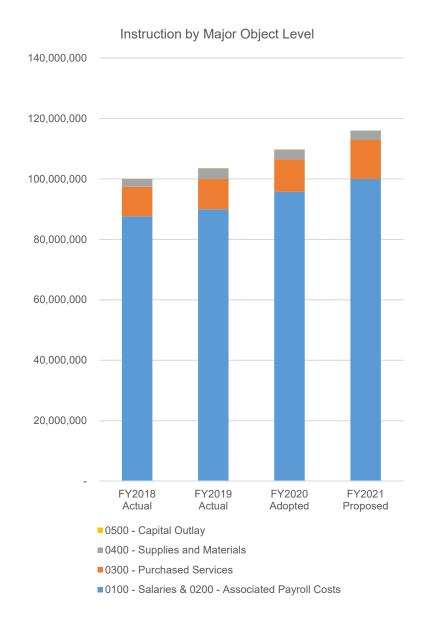

Once staffing levels are determined, the Business Office builds a model to calculate personnel costs. The model is built incrementally in a series of steps starting with a snapshot of staffing in December 2019. Subsequent steps advance people on the salary schedule and add new positions. The model calculates salaries and associated payroll costs including PERS and health insurance.

New PERS rates were effective with the 2019-2021 biennium. The FY2020-21 PERS employer rates are Tier 1&2 22.76% and OPSRP 17.31%. PERS rates are projected to continue increasing over the next decade.

Biennium	Tier 1/2 GS	OPSRP GS
2017 - 2019	17.99%	12.66%
2019 - 2021	22.76%	17.31%
2021 - 2023	28.17%	22.72%
2023 - 2025	29.06%	23.61%
2025 - 2027	28.75%	23.30%

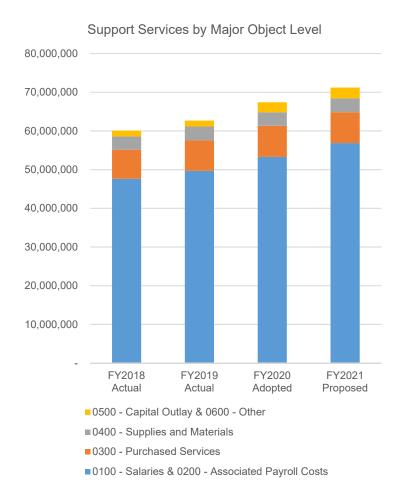

Instruction

The FY2020-21 proposed budget includes almost \$116 million for Instruction in the General Fund Operations Subfund. This is an increase of about \$6.3 million compared with the FY2019-20 adopted budget. Over 86% of the instruction budget is related to people.

Support Services

The FY2020-21 proposed budget includes \$71 million for Support Services in the General Fund Operations Subfund. This is an increase of about \$3.8 million compared with the FY2019-20 adopted budget. About 80% of the Support Services budget is related to people.

Assumptions for Significant Non-personnel Items

Utilities, Buildings and Grounds – the FY2020-21 proposed budget assumes the operation of nineteen elementary schools, seven middle schools, and seven high schools.

Student Transportation – additional routes as needed with student growth.

Substitutes – The FY2020-21 proposed budget includes about \$2.8 million for substitutes, an increase of almost \$122,000 or 4.5%. The cost of substitutes has increased with the passage of legislation which now requires the payment of PERS contributions on all retired employees including those who are working as substitutes.

Charter Schools – The District contracts with two charter schools, Bend International School and Desert Sky Montessori School. The FY2020-21 proposed budget includes about \$2.9 million for charter school payments, an increase of about \$190,000. The increase is based on a higher charter school rate per ODE and projected growth in student enrollment at Desert Sky Montessori School from the planned expansion of a sixth-grade class.

ALOs – The district contracts with other entities for alternative education services. The FY2020-21 proposed budget includes almost \$6.7 million for alternative education services, an increase of about \$1.7 million. The increase is based on projected growth of almost 52% in student enrollment at the Oregon National Guard Youth Challenge Program.

Oregon Military Department - the Oregon National Guard Youth Challenge Program (OYCP), an alternative high school. It is a residential school where cadets (students) live on site for 5 months while attending the military model school. OYCP expanded their facilities to accommodate additional students.

COIC GED program - offers alternative high school education to allow students ages 14-24 to make up credits and return to their regular classrooms, or to earn a state high school diploma or GED.

COIC JDEP - Juvenile Detention Education Program (JDEP) – serving youth that are in juvenile detention through a contract with the State.

J Bar J - The J Bar J Boys Ranch (est. 1968) is a 28-bed residential facility serving young offenders, ages 13-18, in need of court-ordered rehabilitation services. The program uses accountability-based cognitive restructuring, emphasizing individual accountability and personal growth.

Academy at Sisters - a premier therapeutic and academic boarding school for at-risk young women ages 13-18.

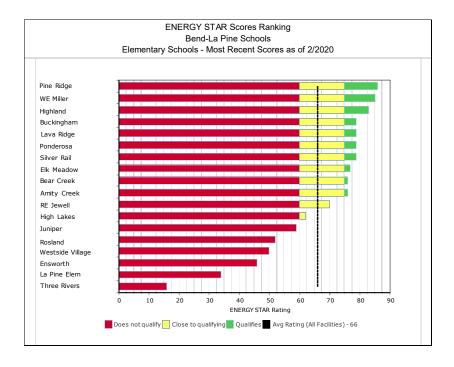

Athletics – Athletic costs are accounted for in the General Fund Athletics Subfund. The costs are funded with pay-to-play fees and gate receipts, with the balance covered by a transfer from the Operations Subfund. In addition, we committed to grow the athletic discretionary allocation to schools by \$50,000 for FY2020-21.

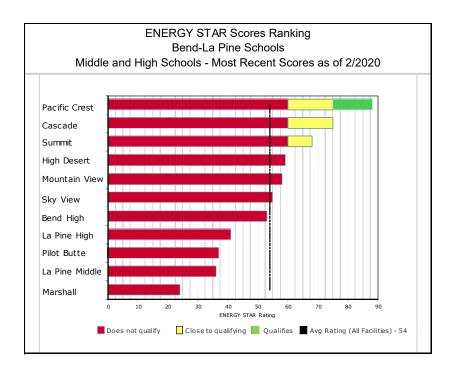

Instructional materials – New curriculum, adoption materials, and the cost of digital instructional materials are budgeted in the Instructional Materials Subfund.

Liability and property insurance – The FY2020-21 proposed budget for liability and property insurance was increased about 23.6% to cover the increase in the premiums. The premium

increase is a direct result of a marketplace increase in the cost of insurance.

Energy efficiency – The District has placed a focus on the usage of energy in the District buildings by constructing more energy-efficient buildings, upgrading existing buildings and promoting energy savings by students and staff. Projects to increase energy efficiency include LED lighting upgrades, equipment replacements (boilers, burners, hot water heaters) and upgrading the Direct Digital Controls for the HVAC and lighting systems.

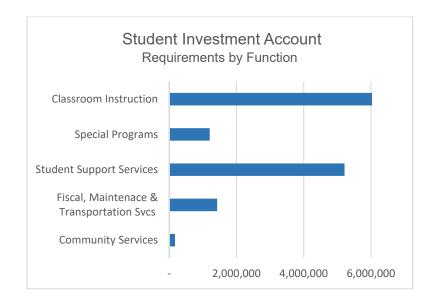

Student Success Act

In May 2019, Oregon passed the historic Student Success Act (SSA). SSA provides public school districts with an opportunity to invest more fully in an education system that helps to ensure every student realizes their dreams for the future. When completely implemented, this new statewide investment will bring Oregon closer to the Quality Education Model funding that our students and staff deserve and make Oregon's education system more competitive nationwide.

The Student Success Act's general resources are separated into three investment accounts: Early Learning Account, Student Investment Account, and Statewide Initiatives

Account; and calls for the state to fully fund Measure 98's High School Success Fund for the first time since it was passed by voters in 2016. This new investment from the Student Investment Account (SIA) and High School Success (HSS) fund is expected to increase the District's budget by approximately 9%, to \$208 million, for the FY2020-21.

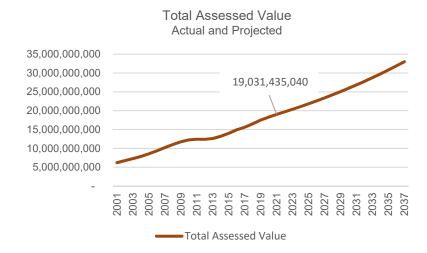

Debt Service

Districts may levy taxes for the repayment of bonded debt upon voter approval. Tax levies or bonded debt fall outside of the limits of Measure 5. Measure 50 limited the use of bonded debt to funding capital construction and improvements and prohibited using the bonds to finance the purchase of equipment or maintenance and routine repairs. The 2009 state legislature approved a provision of the Oregon Constitution which effectively expanded the range of the qualifying uses of bond proceeds by re-defining "capital costs" as costs of land and of other assets having a useful life of more than one year, including costs associated with acquisition, construction, improvement, remodeling, furnishing, equipping, maintenance or repair. Bonds may not be used to pay for the costs of routine maintenance or supplies.

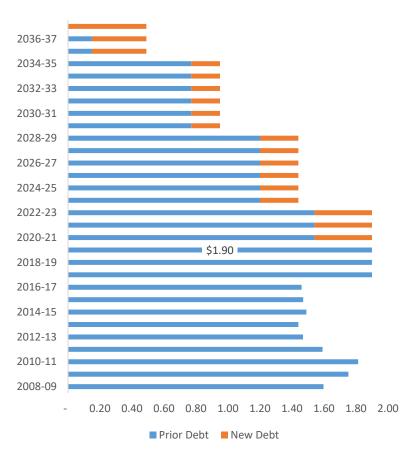

On May 16, 2017, voters approved a general obligation bond issue in the amount of \$268 million. Projects include a new high school, a new elementary school, as well as technology, safety, and maintenance projects throughout the district. The district issued \$175 million in August 2017 and issued the remaining \$93 million in July 2019.

Debt limit is established by Oregon law (ORS 328.245(1) and (2)) at 7.95 percent of the real market value of property within the taxing district's boundary. As of July 1, 2019, the District's net bonded debt was \$2,030,124,057 less than the statutory debt limit.

The following chart shows the assessed valuation used in the calculation of the debt service property tax rates. The accompanying chart shows the actual and projected property tax rates for general obligations bonds.

The budget process is an on-going cycle and building the proposed and adopted budgets generally starts in December and ends in June. By far, Bend-La Pines School's employees are our largest budget expenditure. We are a people intensive operation. Our employees are allocated to schools based on enrollment, demographics and the needs of our students. It is critical to our success that we hire the best employees and make sure everyone is working toward the goals and ends presented in the comprehensive plan. The FY2020-21 proposed budget is a plan that will help us reach the Board's eight ends.

Changes to Budget Upon Adoption

On May 12, 2020 the budget committee approved the FY2020-21 proposed budget. On June 9, 2020 the Board adopted the budget approved by the budget committee without any changes.

BEND-LA PINE SCHOOLS ADMINISTRATIVE SCHOOL DISTRICT NO. 1 DESCHUTES COUNTY, OREGON 2019-20 SUPPLEMENTAL BUDGET RESOLUTION NO. 1898

CLASSIFICATIONS OF REVENUES

Revenues are classified according to their source. They are generally divided into five groups.

1000 Local Sources

These revenues are derived from sources within our school district. Examples include: collected taxes, fees to participate, and tuition.

2000 Intermediate Sources

Revenues derived from county level government agencies and the Education Service District (ESD).

3000 State Sources

Revenues from the state or through the state including, State School Support and state grants-in-aid.

4000 Federal Sources

Revenues include restricted and unrestricted grants-in-aid from the federal government.

5000 Other Sources

Other revenue sources not classified above include debt financing, transfers, and beginning fund balance.

DEFINITIONS OF FUNCTIONS

1000 Instruction

Activities dealing directly with the instruction of students or in other learning situations such as those involving co-curricular activities. Included here are the expenditures for classroom instructional supplies and materials as well as costs for instructional services and payments to private alternative learning programs.

2000 Support Services

Support services activities are those services that provide administrative, technical, personal (such as guidance and health), and logistical support to facilitate and enhance instruction and, to a lesser degree, community services. Support services exist to sustain and enhance instruction, rather than as entities within themselves.

3000 Enterprise and Community Services

Activities which are not directly related to student instruction. These include services such as community recreation programs, food services, civic activities, public libraries, programs of custody and care of children, and community welfare activities provided by the district for the community as a whole or in part.

4000 Facilities Acquisition and Construction

Activities concerned with the acquisition of land and buildings; major remodeling and construction of buildings and major additions to buildings; initial installation or extension of service systems and other built-in equipment; and major improvements to sites.

5000 Other Uses

Activities included in this category are servicing the debt of a district and conduit-type transfers from one fund to another fund.

6000 Contingency

Expenditures which cannot be foreseen and planned in the budget process because of an occurrence of an unusual or extraordinary event.

7000 Unappropriated Ending Fund Balance

An estimate of funds needed to maintain operations of the School District from July 1 of the ensuing fiscal year and the time when sufficient new revenues become available to meet cash flow needs of the fund. No expenditures shall be made from the unappropriated ending fund balance in the year in which it is budgeted.

DEFINITIONS OF OBJECTS

100 Salaries

Amounts paid to employees of the district who are considered to be in positions of a permanent nature or hired temporarily, including some personnel substituting for those in permanent positions. This includes gross salary for personal services rendered while on the payroll of the district. The district budgets salaries by FTE (full-time equivalency).

200 Associated Payroll Costs

Amounts paid by the district on behalf of employees; these amounts are not included in the gross salary, but are over and above. Such payments are fringe benefit payments, and, while not paid directly to employees, nevertheless are part of the cost of salaries and benefits. Examples are: 1) group health and life insurance, 2) contributions to Public Employees Retirement System (PERS), 3) social security, 4) workers' compensation, and 5) unemployment insurance.

300 Purchased Services

Services which by their nature can be performed only by persons or firms with specialized skills and knowledge. While a product may or may not result from the transaction, the primary reason for the purchase is the service provided. Included are the services of architects, engineers, auditors, dentists, medical doctors, lawyers, consultants, accountants, etc. Also included are the costs of most substitutes which are contracted through the Education Service District, charter school payments, and Alternative Learning Options payments.

400 Supplies and Materials

Amounts paid for material items of an expendable nature that have a useful life of one year or less, or that have a value less than \$5,000.

500 Capital Outlay

Expenditures for the acquisition of fixed assets or additions to fixed assets. They are expenditures for land or existing buildings, improvements of grounds, construction of buildings, additions to buildings, remodeling of buildings, initial equipment, additional equipment, and replacement of equipment.

600 Other Objects

Amounts paid for goods and services not otherwise classified above. This includes expenditures for the retirement of debt, the payment of interest on debt, and the payment of dues and fees.

700 Transfers

This object category does not represent a purchase. Included here are transactions for interchanging money from one fund to another and for transmitting flow-through funds to the recipient (person or agency).

800 Other Uses of Funds

These are amounts set aside for contingency and reserve for next year.

EDUCATING THRIVING CITIZENS

GENERAL FUND OTHER

"A good education is a foundation for a better future."
-Elizabeth Warren

ATHLETICS

The Athletics subfund has been established to centralize the accounting for sports and activities. Expenditures in the Athletics subfund includes extra duty contracts, supplies, transportation, purchased services, capital outlay and Oregon School Activities Association dues. The primary revenues are a transfer from the General Fund Operations subfund, pay-to-play fees and ticket sales.

The sports included within this budget for high schools are:

- Baseball
- Basketball
- Golf
- Cross country
- Football
- Skiing
- Soccer
- Softball
- Swimming
- Tennis
- Track
- Volleyball
- Wrestling

The sports included within this budget for middle schools are:

- Cross country
- Football
- Track
- Volleyball
- Wrestling

INSTRUCTIONAL MATERIALS

This subfund is designed to accumulate funds to allow the District to implement instructional materials adoptions in a timely manner. The source of funds is a transfer from the

general fund operations subfund each year. In 2020-21, we plan to use resources in this fund for instructional materials and to support digital learning.

TRANSPORTATION RESERVE

This subfund is designed for the replacement of buses and the purchase of ancillary equipment such as radios and cameras equipment. A plan to replace the bus fleet over thirteen years was implemented in FY2018-19. The revenue to support the bus replacement comes from the depreciation component of the State School Transportation grant, transfers from General Fund Operations and debt proceeds.

PRINT SHOP

The Print Shop subfund is used to account for revenue and expenditures for printed or copied materials used in the school district. The cost of leasing district copiers and printers, the cost of print shop equipment and maintenance of the equipment, and the costs of personnel and supplies

are recorded in this subfund. Revenues to support the print shop services will come from the fees charged on each impression made by the Print Shop, printers, and copiers.

FACILITY USAGE

The Facility Usage subfund was originally established to account for the long term maintenance and renovation of facilities that are used by the community through our building usage program. Through 2007-08, a portion of the revenue received was reported in the general fund operations subfund to offset staff costs related to the use of district facilities. Starting in the 2008-09 school year, all activities related to facility usage have been accounted for in this subfund. Revenues are derived from building usage

fees. Expenditures include staffing costs and other facility related costs. The revenues will continue to be allocated as they have in the past, with 25% allocated to each site to help offset their costs of maintaining the facility. The remaining 75% will be used to offset the costs of the program. We also budget furniture, equipment replacement expenditures, and Career Technical Education (CTE) reserves in this fund.

TECHNOLOGY REPLACEMENT

The Technology Replacement subfund will be funded by E-Rate reimbursements and resources from the High Desert Education Service District. These resources are intended to replace district technology assets that have become obsolete or have catastrophically failed and cannot be repaired. Additionally, the resources will be used to address other district wide technology priorities, such as

achieving technology equity across all schools. The assets that are covered include computers, network and telecommunications equipment, building alarms, video distribution, and display equipment. In 2020-21, we are planning to use resources in this fund to continue supporting digital conversion and other infrastructure needs.

MAINTENANCE REPLACEMENT

The Maintenance Replacement subfund will be used to pay for ongoing major maintenance projects at existing school and support service sites. The projects, identified by staff, require funding greater than what is available at the individual sites. In previous years, resources for this fund were derived

through a transfer from the General Fund Operations subfund. Projects such as district security fences, boiler repairs, etc., will be funded from any residual dollars remaining from the previous fiscal year and from Senate Bill 1149 projects.

SPECIAL REVENUE FUND

Consolidated

The Special Revenue fund is used to account for the proceeds of specific revenue sources that are restricted to expenditures for specified purposes. For our District, the special revenue fund includes all grants, nutrition services, and student body. Individual schedules for each special revenue type follow the consolidated

schedule. Separate schedules are presented for the Student Investment Account and the High School Success (Measure 98) grant for informational purposes. These two grants are included in the consolidated grants schedule.

SPECIAL REVENUE FUND

Grants

This subfund is used to account for revenues and expenditures for programs supported with Federal, State and other grants. The grants that are received are restricted to the specific use for which they are intended. These funds

cannot be used to supplant regular programs or positions within the general operating fund. Their purpose is to supplement programs the District offers.

Many grants are expected to be received throughout the year. Some of the more significant grants are:

Title I Basic Programs

IDEA (Individuals with Disabilities Education Act) part B Special Education

Title III English as a Second Language (ESL)

Title IIA – Improving Teacher Quality (formerly Class-size Reduction)

House Bill 3499 English Language Learner Transformation District

Senate Bill 1149 funds for energy efficiency

Career and Technical Education Career Pathways Grant

Facilities Grant

Seismic Rehabilitation Grant (specifically for Amity Creek at Thompson School)

Youth Transition Program Grant

Outdoor School Funding

Family Access Network (FAN)

Title IV Student Support and Academic Enrichment Grant

ESSA Partnerships

Student Investment Account

High School Success (Measure 98)

SPECIAL REVENUE FUND

Grants - Student Investment Account

The Student Investment Account is part of the Special Revenue Fund – Grant subfund. The District is presenting this additional grant report which includes only the Student Investment Account budget to provide transparency in the budgeting process. This grant is restricted to the specific uses detailed in the Student Success Act enacted by the

Oregon legislature which provides the resources for this grant. The District, through its Strategic Investment Plan, will dedicate resources for the purposes of supporting students' health and safety, reducing class size, and increasing access to a well-rounded education.

SPECIAL REVENUE FUND

High School Success (Measure 98)

The High School Success (Measure 98) grant is part of the Special Revenue Fund – Grant subfund. The District is presenting this additional grant report which includes only the High School Success budget to provide transparency in the budgeting process. The Student Success Act enacted by the Oregon legislature provides the resources to fully fund this grant for the first time since Measure 98 was passed by

voters in 2016. The District, through its Strategic Investment Plan, will dedicate resources for the purposes of expanding CTE programs, expanding advanced coursework and electives and supporting the professional learning of certified and classified staff so they can help ensure each student learns at high levels.

SPECIAL REVENUE FUND

Nutrition Services

The Nutrition Services subfund is comprised of the receipts and expenditures of forty serving locations, including all 32 Bend-La Pine Schools.

Federal Law 91-248 requires a portion of the State School Support Fund to be appropriated to the Nutrition Services Fund. The amount of this subsidy is determined by a formula based on the number of student lunches served.

The Nutrition Services Fund exists as a self-balancing set of accounts and is operated in accordance with generally accepted accounting principles of special revenue funds.

The Nutrition Service Program operates within guidelines established by the US Department of Agriculture's Food Nutrition Services and the Oregon Department of Education School Nutrition Program.

LONG TERM DEBT SERVICE FUND

Represented below is the source of revenue for payments for bonds issued in 2007, 2013, 2016, 2017 and 2019. The District participated in a refunding of the 2007 issue in order to achieve a property tax savings for the community. These payments are made through local property tax collections.

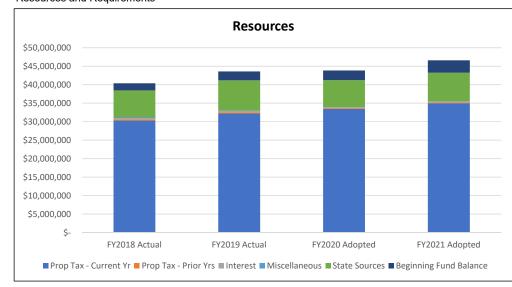

The District also participated in three statewide issues to reduce the District's portion of the Public Employees Retirement System liability for active and retired employees. This resulted in a lowering of the rate the district is required to pay to Public Employees Retirement System (PERS) for the future. In 2012, a portion of the PERS bonds was refinanced at a lower interest rate. The

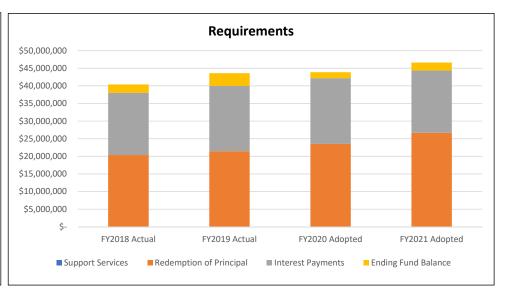

resource to pay the debt service on the pension bonds is the State School Fund.

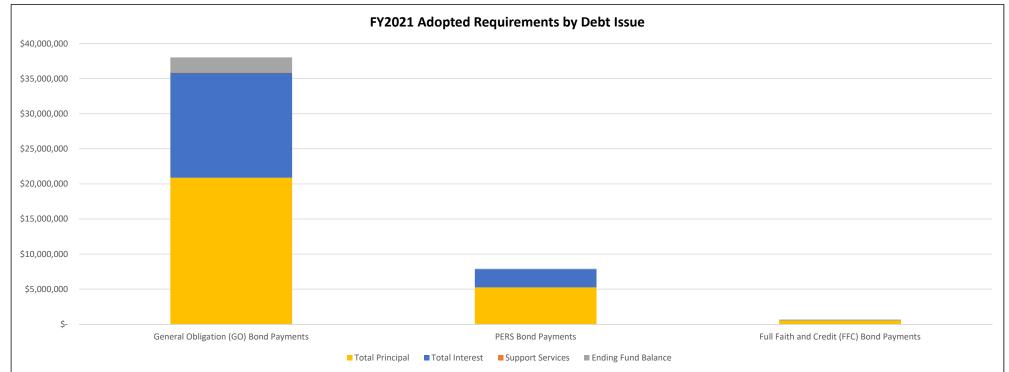

This fund also includes the debt service for the Summit Field project. This debt service will be paid with investment earnings, surplus property sales, and operating funds.

On May 16, 2017, voters approved a new \$268 million general obligation levy to build new schools and address needs in existing facilities. The District issued \$175 million in bonds on August 30, 2017 and the remaining \$93 million on July 24, 2019.

CAPITAL PROJECTS FUND

This fund is used to account for financial resources used, and expenditures made, to acquire or construct major capital facilities. The major resource is the proceeds from the sale of bonds.

On May 16, 2017, voters approved bonds for new schools that authorize us to issue \$268 million in general obligation bonds. The proceeds are for construction of an elementary school, a high school, and 157 safety improvement,

classroom renovation, and preservation projects at our current facilities. All projects are estimated to be complete by 2022.

A capital project subfund was created for the replacement of the Kenwood gym and future repairs to roofs damaged in the 2017 snow event. Resources are insurance proceeds.

TRUST FUND

The Trust Fund is used to account for monies held by the district as trustee. Most are non-expendable trusts (the principal may not be spent; only the interest may be spent). They were created when citizens donated money

to the school district to provide scholarships to district students. Following is a list of the multitude of trust funds contained within the Fund:

M. Thompson Memorial	Scholarship for Bend High girl attending Oregon State University
P. Obye Memorial	Mountain View High student awarded the most inspirational wrestler
Thomas G. Kirk	Scholarship for a senior lettering in a sport with high academic standing
David Coon Memorial	Bend High student with high academic standing with interest in drafting
Adrian Irwin Memorial	Bend High or Mountain View High 2-year wrestler with a 3.0 GPA (Grade Point Average)
Doug Harris Scholarship	Student involved in co-curricular activities, displaying leadership with a 3.5 GPA
Sarah Mace Memorial	Student who plans to continue education or service to their country
Ron & Gail Wilkinson Future Teacher Scholarship	Student who plans to continue education with interest in an education career
Matthew Coleman Memorial Scholarship	Student who plans to continue education with interest in pursuing higher education in music or performing arts
Bend-La Pine Administrators and Supervisors Team	Student who plans to pursue post-secondary education/training institution
