**IB Statewide Course Credit Policy Articulation Table**

Starting in the fall of 2020, the updated Statewide International Baccalaureate (IB) Policy expands access to articulated college credit for high school students with a score of a 4 on their IB subject exams (while the minimum score was previously 5). This document aims to consolidate and communicate IB course credit articulations for the 7 public universities and 17 community colleges in Oregon.

Data was compiled by the Higher Education Coordinating Commission during the 2019-2020 academic year and will be updated to reflect the latest articulations regularly during the following years of the redesign implementation. Updates for articulations listed in this table should be sent to Erin Weeks-Earp (erin.weeks-earp@state.or.us) at the HECC. Updates to the table must be sent by community college or university registrars or members of the AP/IB Policy Workgroup. Additionally, any individual is welcome to alert us to updates that are available on public facing college or university websites (websites should always include the date of the most recent change).

**To read the chart:**

The far left includes six identifier columns, followed by 24 columns of specific articulations. The first column (Column A) contains the Core Transfer Map subject areas, the second column (Column B) includes Credit Ranges for each score and subject, and third (Column C) lists the IB Course Name, these are in alphabetical order down the rows. The final two identifiers are the exams levels and scores (Column D and E). Scores are listed as 4, or 5 and above which means 5, 6, & 7.

The 17 Colleges and 7 Public Universities are listed in the remaining columns and for each IB course. The cell at the intersection of university/college column and score shows the respective course articulation (e.g. ART 204) and the awarded number of credits (figure in the parentheses).
