

Each school will be responsible for establishing and administering their own safety team. Each school will select a safety officer to administer their school's safety team. School safety teams will work in conjunction with the district safety team to create a safe work environment for all employees.

Goal

The goal of school safety committees is to get staff and administrators working together to prevent workplace accidents and injuries, and produce a safer and healthier workplace.

Meetings

- The safety team will have an equal number of employer-selected members and employee-elected (or volunteer) members. At least one school administrator will be a part of the school safety team.
- The safety team will meet (at a minimum) on a monthly basis.
- Safety meetings will be held on district time, and attendees will be paid at their regular rate of pay.
- Safety meetings will focus on reviewing inspection and accident records, and reviewing, investigating, and providing recommendations to any safety concern reports from school employees.

Minutes

- Safety meeting minutes will be retained by the school for a minimum of three years.
- Safety meeting minutes will be made available to all school employees.

Organizational Chart

The school will make available to all employees the organizational chart of members on the school safety team.

Bulletin Boards

The school safety team will maintain a bulletin board with all pertinent safety committee minutes, policies, communication plans, and safety committee organizational charts in a location that is accessible to all employees.

OSHA

OAR 437-001-076 ([OSHA](#)) governs the rules for workplace safety committees and safety meetings in Oregon, and is a good source of additional information.

COVID-19 Safety Team Checklist

Updated: 1/25/2021

One of the guiding principles behind ODE's *Operational Blueprint* is to ensure safety and wellness. The decision to return to school is driven by health and safety considerations, and should create the conditions to support the mental, social, and emotional health of students and staff.

School safety teams will use this checklist to help ensure they are following the guidelines set out by the Oregon Department of Education (ODE), Oregon Health Authority (OHA), the Center for Disease Control (CDC), and the Occupational Safety and Health Administration (OSHA).

- (1) Make a copy of this COVID-19 Safety Checklist for your school; (2) save it with "[Your school] COVID Checklist 10-30-2020 update"; (3) upload it [here](#); and, (4) remove your older version.**

This is your school's verification that you have satisfied ODE blueprint domains 1-3 and are ready to welcome students back into your building under Limited In Person, Hybrid or All-In when the metrics allow it.

[Due by Tuesday, 1/25/2021](#)

Designated Staff Member for COVID-19 Guideline Enforcement (1a)

- Who is the school/site designated COVID-19 Guideline Enforcement staff member? ✓

Chris Reese, christopher.reese@bend.k12.or.us, 541-355-3700

Name

email

internal phone number

- Who is the staff member completing ODE's COVID-19 Weekly School Status email? ✓

Gabe Pagano, gabe.pagano@bend.k12.or.us, 541-355-3704

| Name | email | internal phone number |
|------|-------|-----------------------|
|------|-------|-----------------------|

- All staff members know who the designated guideline enforcement staff member is ✓
- The contact information for the designated staff member been posted on the staff bulletin board ✓

Communication & Training (1a, 1e, 1f)

- We have a bulletin board that is centrally located for all staff to view ODE safety requirements, guidelines. ✓ Main Entrance, right.
- Staff understand to follow [this flow chart](#) for questions/concerns about COVID-19 safety issues. ✓
- All staff have been informed on the function of the school safety team, know who the safety team members are, and are aware of the most up-to-date guidelines from ODE, OHA, and the school district leadership. ✓
- Building principals will work with the Director of Communications & School Safety, Julianne Repman, to distribute letters to staff/families in the event of a presumptive or confirmed COVID-19 case ✓
- Staff understand the symptoms of COVID-19. ✓
- Staff understand the district's policy and guidance for staying home from work if they have symptoms of COVID-19. ✓
- Staff have been reminded to use the [Return To School website](#), the [COVID-19 staff portal](#) and [Bend-La Pine Schools Ready Set Learn Communications Guidance for COVID-19 Positive Cases](#) to stay up-to-date on the district latest information ✓
- Staff are aware that this school safety plan is uploaded to the [Return To School website](#) and viewable by the public ✓
- Your staff has met either in-person or virtually to discuss the details of this plan ✓
- How have the details of this plan been shared with your parent/student community? ✓
 - Bimonthly Newsletters - Chris Reese
 - Welcome Back to BSH - February 8th and 9th
 - Mackenzie Groshong - Orientation Activities - Welcome Back - Student Leadership
 - Kevin Cooper - Day in the Life - A BSH Student - Student Government
- All staff have viewed the COVID-19 training video ✓

Contact Tracing (1a)

- We have all required contact tracing logs ✓
 - Student logs through synergy and accurate in-person attendance ✓
 - Staff contact tracing will continue HDES, staff absence reporting practices ✓
- We have a system for maintaining and storing logs for at least four weeks. ✓
- We are quickly able to provide our Local Health Authority with tracing logs for students and staff when requested. ✓

- Who is the person managing the student synergy reports and who will work directly with Tami to pass along the student logs to Deschutes County Health?

Mary Hofer, Front Office Lead, mary.hofer@bend.k12.or.us

Christopher Reese, Principal, Christopher.reese@bend.k12.or.us

Shannon Byrant, BSH Nurse, shannon.bryant@bend.k12.or.us

| Name | Position | Email | Internal Phone Number |
|------|----------|-------|-----------------------|
|------|----------|-------|-----------------------|

- Who is the person managing the staff cohort lists, staff paper and digital logs at your building and who will work directly with Tami to pass along the logs to Deschutes County Health

Mary Hofer, Front Office Lead, mary.hofer@bend.k12.or.us

| Name | Position | Email | Internal Phone Number |
|------|----------|-------|-----------------------|
|------|----------|-------|-----------------------|

Physical Distancing (1c, 2f)

- Staff must maintain physical distancing during all staff meetings and conferences, or consider remote web-based meetings. ✓
- Each room has a maximum occupancy sign posted which has been calculated based upon the 35 square feet of space per student/staff in each space. ✓
- Physical distancing signage is posted throughout the school. ✓
- We have physical distancing markings on floor space (where appropriate). ✓
 - Left/Right blue flow arrows are posted around entire campus
 - Students will be encouraged to socially distance during travel between classes
- We have/will train students and staff on physical distancing guidelines. ✓
- We will have taken precautions to limit the amount of time spent standing in lines by students? ✓
 - BSH has one point of entrance - main student entrance, north of building
 - BSH doors unlock promptly at 9:05AM
 - Students will not be allowed in building prior to that time
 - Teacher's classroom will be unlocked at 9:05AM to begin greeting students for the day
 - Visual symptom check, hand sanitation and directional flow will be monitored by administration and support staff each day
 - Grouping of students is discouraged in commons, passing times and lunch times
- We redirected our traffic flow (one-way when possible) to maximize physical distancing. [Please elaborate on how you are managing traffic flow to maximize physical distancing- ie. creating one-way corridors/stairwells, placing floor markings to create lanes for student movement when one-way solutions aren't possible, having hall monitors direct movement, other ideas] *Include pictures if you have them.* ✓
 - Left/Right blue flow arrows are posted around entire campus
- We have staggered students accessing common areas (like hallways and the cafeteria) to small cohorts. ✓

- We are prepared to make accommodations for students/staff that need additional support and have communicated this publicly. ✓
- We are minimizing interaction between students in different stable cohorts? (i.e. restrooms, common areas, playgrounds, cafeterias) ✓
 - Classroom Expectations
 - Teacher manages/set up of learning space prior to February 8th
 - Mandatory Seating Charts or working areas (per CTE or Fine Arts Guidance)
 - Restroom Expectations: 1 male/female student at a time and use of closest cohort bathroom
 - Disinfecting of desks or working areas
 - Minimum: 1 time per day, AM or PM: spray and wipe down
 - Large sanitation stations are located throughout the school - multiple per hallway
 - Classrooms are equipped with spray bottles and WAXIE Solution Station 730 HP Disinfectant
 - [BLS COVID19 Cleaning Tips](#)
- We have rearranged student desk and other seat spaces so that staff and students' physical bodies are six feet apart to the maximum extent possible while also maintaining 35 square feet per person. We recommend that couches and rugs be removed because they are difficult to keep clean. ✓
- Design recess activities that allow for physical distancing and maintenance of stable cohorts.
N/A

Cohorts (1d)

- Where feasible, establish stable cohorts: groups shall be no larger than can be accommodated by the space available to provide 35 square feet per person, including staff. The smaller the cohort, the less risk of spreading disease. As cohort groups increase in size, the risk of spreading disease increases. ✓
- Students cannot be part of any single cohort, or part of multiple cohorts that exceed a total of 100 people within the educational week. Schools must plan to limit cohort sizes to allow for efficient contact-tracing and minimal risk for exposure. Cohorts may change week-to-week, but must be stable within the educational week. ✓
- We will adhere to the Limited In Person Instruction (LIPI) guidelines outlined [here](#) ✓
- What is the average range of your cohort sizes within your school during hybrid instruction (*ODE recommends stable cohort size of 24-36 based on space, with recommendations to go even smaller when feasible*)?
 - 15-17 per class
 - Adjustments made to classroom support personnel per period
 - Weekly cohorting: less than 100
- (Elementary Only) What is the average range of your cohort sizes within your school during all-in?

Public Health Communication (1e)

- The definition of exposure (updated) is being within 6 feet of a person who has COVID-19 for at least 15 cumulative minutes in a day ✓

Visitors/Volunteers (1g)

- Staff understand the guidelines/policies around visitors/volunteers. ✓
- Only BLS staff and essential visitors are allowed to enter buildings beyond the lobby. Examples of essential visitors are DHS, child protective services, law enforcement, student teachers and their supervisors, CASA advocates, Friends of Children mentors, cadet teachers, and ESD service providers. When in doubt whether a visitor is 'essential', consult with your Level Leader. ✓
- We will log visitors/contractors/itinerant staff for contact tracing. ✓
- Contractors/authorized visitors will be required to wear face coverings, be screened for COVID symptoms, maintain 6 ft distancing, and wash hands upon entry and exit. ✓
- We have communicated out to staff and families that teacher conferences, meetings (with parents and between staff) should be maximized through videoconferencing or telephone calls. ✓

Face Coverings (1h, 2n)

- Mask Policy (Restrictions on Face Shield Use):** A cloth, paper, or disposable face mask (without valves) that covers the nose and the mouth is the requirement for all BLS students and staff with some exceptions. When exceptions apply, a face shield is permissible, but other safety practices should be implemented, such as maintaining more than 6 feet of social distancing and/or added ventilation of fresh air. ✓

The exceptions are:

- A. For provisions applicable to staff/students protected by ADA or IDEA
- B. Bus drivers when the mask interferes with the driver's vision (e.g., fogging of eyeglasses). Drivers must wear face coverings when not actively driving and operating the bus, including while students are entering or exiting the vehicle.
- C. For specific and time-limited instructional needs such as speech and language, LIPS reading group, ELL lessons or other examples when viewing a teacher's or student's mouth is essential to that portion of the lesson. As soon as possible within the lesson, masks should replace the shields;
- D. For younger children moving into in-person education who exhibit severe emotional dysregulation when wearing a mask. Staff should employ strategies to transition them from shields into mask wearing: mindfulness exercises, increase in the frequency of outdoor mask breaks, and other trauma-informed best practices.
- E. People who are deaf or hard of hearing, or those who care for or interact with a person who is hearing impaired.
- F. Other time-limited exceptions of short durations may be made with administrative knowledge.

A cloth mask with a clear panel is an acceptable option, as is the use of a shield over a mask for added protection.

Individuals working in a private, single use workspace and outside workers who can maintain at least 6 feet of physical distancing do not need to wear a mask or shield.

The BLS masking policy will be updated periodically and the new language will be found in the Supervisory Guidelines and FAQ section of the district Return To School webpage

- Face coverings or face shields will be worn by all students in grades Kindergarten and up ✓
- Face coverings should be worn both indoors and outdoors, including during outdoor recess. ✓
- Group mask breaks” or “full classroom mask breaks” are not allowed. If a student removes a face covering, or demonstrates a need to remove the face covering for a short-period of time, we will: ✓
 - Provide space away from peers while the face covering is removed. In the classroom setting, an example could be a designated chair where a student can sit and take a 15 minute “sensory break;”
 - Students must not be left alone or unsupervised
 - Designated area or chair must be appropriately distanced from other students and of a material that is easily wiped down for disinfection after each use
 - Provide additional instructional supports to effectively wear a face covering
 - Provide students adequate support to re-engage in safely wearing a face covering
 - Students cannot be discriminated against or disciplined for an inability to safely wear a face covering during the school day
 - Partner with counselors, SPED staff, 504 coordinators, nurses, ELL staff, behavioral coaches and/or families to problem-solve face covering issues
- If any student requires an accommodation to meet the requirement for face coverings, districts and schools *must* limit the student’s proximity to students and staff to the extent possible to minimize the possibility of exposure ✓
- Please note, face coverings need to be worn even when staff are behind plexiglass barriers. ✓

Personal Protective Equipment PPE (1h)

- We have enough face coverings and face shields for staff and students ✓

If you need to order more, please designate one person from your location to order when supplies get low. Be sure to specify type A, B or C style face shield or disposable mask. * Order from the distribution center at PPESupplies@bend.k12.or.us

Isolation Protocols (1i)

- [Bend-La Pine Schools Ready Set Learn Communications Guidance for COVID-19 Positive Cases](#) is our guiding document for addressing symptomatic, presumptive and positive COVID-19 situations ✓
- Staff understand the protocols for exclusion and isolation of sick students and colleagues whether identified at the time of bus pick up, arrival at school or at any time during the day ✓
- School nurses have trained staff on your school’s isolation and quarantine protocols and the use of PPE ✓
- Your school’s isolation rooms have been identified and equipped to handle staff/students displaying COVID-19 symptoms. Our isolation rooms are located:
 - LIPI - Nurse Anderson Office
 - Location: Auditorium Lobby
 - Room staffed by additional health service provider to BSH

Hand Hygiene (2d, 2f, 2g)

- All people on campus shall be advised and encouraged to frequently wash their hands or use hand sanitizer. ✓
- We have adequate handwashing stations and/or hand sanitizer (with 60-95% alcohol) dispensers easily accessible near all entry doors and other high-traffic areas. ✓
- We are only using approved hand sanitizer from the district's custodial supply. ✓
- We have protocols (and signage) in place to ensure students and staff are washing their hands or using approved hand sanitizer prior to eating meals/snacks, after recess or using playground equipment, and using the restroom. ✓
- Before and after using playground equipment, students must wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol. **N/A**
- After using the restroom students must wash hands with soap and water for 20 seconds. Soap must be made available to students and staff. ✓
- Staff who interact with multiple stable cohorts will wash/sanitize their hands between interactions with different stable cohorts. ✓

Four hundred wall-mounted, non-touch dispensers and 75 free-standing hand sanitizer stations (with complementary floor mat) have been ordered and will be delivered to your sites. Your existing wall-mounted dispensers will be replaced with these new models. Refill request can be sent to PPESupplies@bend.k12.or.us ✓

School Specific Functions/Facility Features (2d,2f, 2g)

- Steps have been taken to cancel, modify, or postpone field trips, assemblies, athletic events, practices, special performances, school-wide parent meetings and other large gatherings to meet requirements for physical distancing. ✓
- Students will be discouraged to bring personal property to school (e.g., ~~refillable water bottles~~, school supplies, headphones/earbuds, cell phones, books, instruments, etc.). If personal items are brought to school, they must be labeled prior to entering school and use shall be limited to the item owner. Because BLS will close nonbottle-filling water stations, we decided that refillable water bottles are okay if they are labeled with a student's name. ✓
- Provide signage and restrict access to outdoor equipment (including sports equipment, etc.). ✓
- Design recess activities that allow for physical distancing and maintenance of stable cohorts. **N/A**
- We will limit staff rooms, common staff lunch areas, elevators and workspaces to single person usage at a time, maintaining six feet of distance between adults. ✓
- Establish and clearly communicate procedures for keeping caregiver drop-off/pick-up as brief as possible. ✓
- We have partnered with our building's BEA and/or OSEA reps to verify that any new responsibilities related to cleaning, supervision and/or student lunches don't conflict with collective bargaining agreements around breaks and preps times. ✓

Arrivals/Dismissals (2e, 1f)

- BSH has one point of entrance - main student entrance, north of building
- BSH doors unlock promptly at 9:05AM

- Students will not be allowed in building prior to that time
 - Teacher's classroom will be unlocked at 9:05AM to begin greeting students for the day
 - Visual symptom check, hand sanitation and directional flow will be monitored by administration and support staff each day
 - Grouping of students is discouraged in commons, passing times and lunch times
 - Buses will continue to be dropped off and picked up on 6th street
 - Parent drop off will continue to be in the front of the school or next to the athletic field fencing
 - Students who leave the building after the 9:15AM and need to return to the building later in the day will be expected to check in to the attendance office
 - 1:34PM - students will be released from classrooms to lunch
 - 2:10-3:00PM - students remaining on campus will return to classrooms for additional academic support, tutoring or study hall options
 - Students and staff needing to exit the building are encouraged to use the closest exterior door
- We have assigned staff to conduct screening of COVID-19 symptoms as students enter the building. ✓
 - Staff have been trained in symptom screening. (cough, fever of greater than 100.4°F, chills, shortness of breath, difficulty breathing) ✓

Cleaning and Disinfecting (2j, see the Bend-La Pine Schools [COVID-19 Cleaning and Disinfecting Plan](#))

- We are only using approved cleaning products from the district's custodial supply. ✓
- We will work to ensure that cleaning/disinfecting products are not being brought in from outside the custodial supply. (Clorox wipes, bleach products, etc.) ✓
- We will partner with custodians and maintenance staff to ensure that proper ventilation circulation is in place. ✓
- Designate playground and shared equipment solely for the use of one cohort at a time. Outdoor playground structures require normal routine cleaning and do not require disinfection. Shared equipment (balls, jump ropes, etc.) should be cleaned and disinfected at least daily in accordance with [CDC guidance](#). N/A
- Facilities should be cleaned and disinfected at least daily to prevent transmission of the virus from surfaces ✓
- Cleaning and disinfecting surfaces (e.g., desks, door handles, etc.) must be maintained between multiple student uses, even in the same cohort. ✓
- Fans *must* not be used in rooms with closed windows and doors, as this does not allow for fresh air to circulate. ✓
- Schools with HVAC systems must evaluate the system to minimize indoor air recirculation (thus maximizing fresh outdoor air) to the extent possible. Schools that do not have mechanical ventilation systems shall, to the extent possible, increase natural ventilation by opening windows and interior doors before students arrive and after students leave, and while students are present. Do not prop open doors that can pose a safety or security risk to students and staff (e.g., exterior doors and fire doors that must remain closed). ✓

- Questions about cleaning and disinfecting should be made first to your head custodian, then Walt Norris and lastly Terry Cashman. ✓
 - BSH cleaning and disinfecting walk through - completed 1/15/2021

Meal Service/Nutrition (2h)

- Meal services/nutrition staff have been involved in planning for school reentry that includes how:
 - breakfast will be distributed in the morning
 - Grab and Go options presented to school at the 9:05 school opening
 - Students to eat during passing times
 - No students eating in classrooms
 - how/where lunch will occur
 - Main cafeteria food distribution
 - One way flow
 - Social distancing throughout school
 - Open campus for lunch - all grades
 - Students needing to eat on campus - cafeteria, hallways, outside; socially distancing monitored
 - how next-day meals will be distributed **N/A**
- At designated meal or snack times, students may remove their face coverings to eat or drink but must maintain six feet of physical distance from others, and must put face coverings back on after finishing the meal or snack. **TBD**
- Since staff must remove their face coverings during eating and drinking, staff should eat snacks and meals independently, and not in staff rooms when other people are present. Consider staggering times for staff breaks, to prevent congregation in shared spaces. ✓
 - Staff to eat in classrooms
 - Staff classrooms may be closed during lunch time break

School Emergency Procedures and Drills (2m)

- We are ensuring all emergency drills required by law, (ORS 336.071 and OAR 581-022-2225) are taking place. ✓
- We will train staff on safety drills prior to students arriving on the first day on campus in hybrid or face-to-face engagement. ✓
- When or if physical distancing must be compromised, drills must be completed in less than 15 minutes. ✓
- We are ensuring that at least 30 minutes in each school month is used to instruct students on the emergency procedures for fires, earthquakes, and safety threats. ✓
- We plan to carry out drills as closely as possible to the procedures that would be used in an actual emergency (even during CDL and Hybrid models of instruction). ✓
- If on a hybrid schedule, we will conduct multiple drills each month to ensure that all cohorts of students have opportunities to participate in drills (i.e., schedule on different cohort days throughout the year). ✓
- Students must wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol after a drill is complete. ✓

- We plan to conduct the required safety drills virtually during CDL instruction (including the month of September). ✓
- We will report the completion of our drills to the district office (Marsha Baro). ✓

Protocol for Notifying Local Health Authority of Confirmed COVID-19 Cases (3b)

- Staff know that in addition to the traditional manner of report sick leave/absences, a building principal, direct supervisor and/or office manager are required to fill out the Staff Absence Form when a staff member indicates that their absence is COVID-19 related (they are exhibiting high or low risk COVID-19 symptoms, have tested positive for COVID-19, or had a close contact to a positive COVID-19 case) so that our school nurses will follow up with them. For all other non-COVID-19 leave, staff will report the absence in the traditional manner. ✓

The information presented below this point comes from the Highlights of New Language In RSSL Version 5.5 (January 19, 2021) provided by Bend LaPine School district. The Safety Team at BSH is tasked with updated, planning and implementation of these highlight points.

While the metrics are now recommendations only, they are important to consider to ensure a consistent and stable learning environment.

Note: *While the use of the metrics has shifted to an advisory recommendation for districts and schools to consider at their discretion, no other element in this guidance has shifted from required to recommended in this update. And, the Ready Schools, Safe Learners guidance still includes several requirements that must be met for providing in-person instruction, including:*

Required

- If your school is operating an On-Site or Hybrid Instructional Model, but is located in a county that does not meet the advisory metrics (Section 0b); not later than March 1, 2021, the school must offer access to on-site testing for symptomatic students and staff identified on campus as well as those with known exposures to individuals with COVID-19. ✓*
 - BSH is currently working with the local health authority and district Nurses to plan and implement this new change.
 - These resources will be available and administered in near on in the Auditorium lobby

- If your school is operating an On-Site or Hybrid Instructional Model, but is located in a county that does not meet the advisory metrics (Section 0b), the school must provide a Comprehensive Distance Learning Instructional Model option for students and families that choose to remain off-site. For schools and districts that are required to comply with all sections (0-8) and supplements to this guidance, the remote option must comply with the requirements of the Comprehensive Distance Learning Instructional Model. The school or district may determine the most beneficial way to staff this option, through partnership with other schools or ESDs or with staff who may be at more risk from COVID-19 or through other means. ✓*
 - Hybrid Full Access, Bend LaPine Online, Bend LaPine Online Hybrid (outside support), Hybrid/BLO Supported/IB/AP

Sections 1-3 Most Significant Changes

1a. Communicable Disease Management Plan for COVID-19

☐ *Designate a single point-person at each school to establish, implement, support and enforce all RSSL health and safety protocols, including face coverings and physical distancing requirements, consistent with this guidance and other guidance from OHA. This role should be known to all staff in the building with consistent ways for licensed and classified staff to access and voice concerns or needs.* ✓

- Chris Reese, Karen Stiner and Gabe Pagano - BSH Building Support and Monitoring
- Chris Rardin - BSH Hall Monitor - student implementation support

☐ *Create a simple process that allows for named and anonymous sharing of concerns that can be reviewed on a daily and weekly basis by the designated RSSL building point-person. Example: Anonymous survey form or suggestion box where at least weekly submissions and resolutions are shared in some format.* ✓

- Staff can submit concerns anonymously @ [BSH Safety Concerns - Anonymous](#)

☐ *Plans for systematic disinfection of classrooms, common areas, offices, table surfaces, bathrooms and activity areas.* ✓

1c. Physical Distancing

Outside Learning Space Defined

Outside learning space means an open-air space, or a structure with at least 75% of the area of its sides open for airflow. For a school to offer multiple outdoor learning spaces there must be sufficient space to accommodate the number of students and staff in any outside learning space with 6 feet of separation between all students and staff, a natural or artificial barrier separating the spaces, separate drop-off and exit sites, separate bathroom and handwashing facilities, and separate food distribution centers. Separate learning spaces should not have any mingling of individuals between the spaces.

If implementing Learning Outside guidance, *establish an outside learning space for learning that maintains a minimum 35 square feet per person.*

- *Within this design, educators should have their own minimum of 35 square feet and the design of the learning environment must allow for some ability for the educator to move through the room efficiently and carefully without breaking 6 feet of physical distance to the maximum extent feasible.*
- *Currently at BSH: we are not organizing Outdoor Learning Options for staff and students*
- *Teachers interested in utilizing outdoor spaces for Semester 2, 2021 are asked to follow Athletic and Activity Guidelines per OSAA.*

Under Recommendations: Consider utilizing outdoor spaces, common areas, and other buildings in planning. *ODE has provided supplemental guidance to support Learning Outside. This guidance document has also been revised to support increasing learning opportunities outdoors.*

1d. Cohorts

Required

- Cleaning and *sanitizing* surfaces (e.g., desks, *dry erase boards*, door handles, etc.) must be maintained between multiple student uses, even in the same cohort.
- Minimize the number of staff that interact with each cohort to the extent possible, staff who interact with multiple stable cohorts must wash/sanitize their hands between interactions with different stable cohorts.* ✓

1e. Public Health Communication *and Training*

Offer initial training to all staff prior to being in-person in any instructional model. Training could be accomplished through all staff webinar, narrated slide decks, online video, using professional learning communities, or mailing handouts with discussion. Training cannot be delivered solely through the sharing or forwarding information electronically or in paper copy form as this is an insufficient method for ensuring fidelity to public health protocols (see section 8b for specific training requirements). Note: Instructional time requirements allow for time to be devoted for professional learning that includes RSSL training. ✓

- Weekly BSH Staff Meetings via WebEx

- Post “COVID -19 Hazard Poster” and “Masks Required” signs as required by OSHA administrative rule OAR 437-001-0744(3)(d) and (e) exposure* ✓
- Periodic interval training also keeps the vigilance to protocols ever present when fatigue and changing circumstances might result in reduced adherence to guidance.* ✓

1f. Entry and Screening

Required

- Diligently screen all students and staff for symptoms on entry to bus/school/outside learning space every day. This can be done visually as well as asking students and staff about any new symptoms or close*

contact with someone with COVID-19. For students, confirmation from a parent/caregiver or guardian can also be appropriate. Staff members can self-screen and attest to their own health, but regular reminders of the importance of daily screening must be provided to staff. Self-screening of adult staff members can be efficient but also problematic if not held to the highest of standards and building a culture where staff don't sign-in when they have symptoms that should have them staying or working from home. ✓

- Staff continue to sign in using QR code
- Students enter main entrance
- Administration, Nurse, Administrative Intern, Campus Monitor, Front Office Clerical staff

1g. Visitors/Volunteers

Diligently screen all visitors/volunteers for symptoms and ask questions about symptoms and any close contact with someone diagnosed with COVID-19 upon every entry. Restrict from school property any visitor known to have been exposed to COVID-19. See the [COVID-19 Exclusion Summary Guide](#).

- BSH exterior locked at all times
- Safe school vestibule will continue to be the main entrance for all visitors and community members once the metrics have been met within the county
- All visitors will be directed past sanitation stations to attendance window for any building needs

1h. Face Coverings, Face Shields and Clear Plastic Barrier

Face coverings are required for all students in grades kindergarten and up, along with all staff. Certain accommodations *for medical needs or disability* are noted in the guidance below. *Student or family refusal to wear appropriate face covering for a values-based reason then dictates that educational needs be met through Comprehensive Distance Learning. Staff refusal to wear appropriate face coverings should be addressed according to established school or district processes.*

In October 2020 it was established that people without symptoms can spread the virus that causes COVID-19, and this is a significant contributor to person-to-person spread. Face coverings decrease the spread of COVID-19 as “source control” of a contagious person’s respiratory secretions. Use of face coverings does not change physical distancing requirements. In addition, [evidence continues to suggest](#) that airborne transmission plays a role in the spread of COVID-19, via exposure to small droplets and aerosols that contain the virus and can linger in the air for minutes to hours. This means the virus may be able to infect people who are farther than 6 feet away from the person who is infected, especially in enclosed indoor spaces, when people are shouting, singing or exercising, and when air ventilation is suboptimal. ✓

Required

Employers are required to provide masks, face coverings, or face shields for all staff, contractors, other service providers, visitors and volunteers. ✓

☐ Face coverings or face shields for all staff, contractors, other service providers, visitors or volunteers following [CDC guidelines for Face Coverings](#). *Individuals may remove their face coverings while working alone in private offices or when separated by more than 6 feet in outside learning spaces.* Face shields are an acceptable alternative *only* when a person has a medical condition that prevents them from wearing a mask or face covering, when people need to see mouth and tongue motions in order to communicate, or when an individual is speaking to an audience for a short period of time and clear communication is otherwise not possible. ✓

Accommodations under ADA or IDEA and providing FAPE while attending to Face Covering Guidance

Students who abstain from wearing a face covering, or students whose families determine the student will not wear a face covering during On-Site instruction must be provided access to instruction. Comprehensive Distance Learning can and should be provided when this decision is values-based. However, additional provisions do apply to students protected under ADA and IDEA.

8 Additional resources for mask wearing: [COVID-19: Teaching a Child with Autism How to Wear a Mask or Face Covering, Masks Toolkit, Cloth Face Coverings for Children During COVID-19, Oregon Pediatric Society "Mask Up Oregon Kids"](#)

1i. Isolation and Quarantine

Required

☐ Protocols for screening students, as well as exclusion and isolation protocols for sick students and staff identified at the time of arrival or during the school day. *See the [COVID-19 Exclusion Summary Guide](#).* ✓

- Student Isolation Room - Auditorium Commons
- 2 Way - One Entrance, One Exit - pick up at the front office
- Staff - front office contact, stay in classroom, make call to Mary

☐ Work with school nurses, health care providers, or other staff with expertise to determine necessary modifications to areas where staff/students will be isolated. If two students present COVID-19 symptoms at the same time, they must be isolated at once. If separate rooms are not available, ensure that six feet distance is maintained. Do not assume they have the same illness. *Consider if and where students and staff will be isolated during learning outside. Create a comfortable outdoor area for isolation or follow plan for in building isolation.* ✓

- All outdoor options for academics will be available to Physical Education / Health
- Unified Sports, Adaptive PE and SPED students

☐ Students and staff who report or develop symptoms must be isolated in a designated isolation area in the school *or outside learning space*, with adequate space and staff supervision and symptom monitoring by a school nurse, other school-based health care provider or school staff until they are able

to go home. Anyone providing supervision and symptom monitoring must wear appropriate face covering or face shields. ✓

The school must provide a remote learning option for students who are required to be temporarily off-site for isolation and quarantine. ✓

2b. Attendance

For On-Site Instructional Models, *including learning outside*, the ODE's prior attendance and reporting practices are unchanged and meet the requirements described in this section and can be informed by the recommendations presented. ✓

2d. School Specific Functions/Facility Features

Required

Personal Property: Establish policies for *identifying* personal property being brought to school (e.g., refillable water bottles, school supplies, headphones/earbuds, cell phones, books, instruments, etc.). ✓

- Please bring back packs
- All personal property should come and go with students at the end of each day
- No locker check out per Semester 2

2g. Playgrounds, Fields, Recess, Breaks, and Restrooms

Required

Limit the number of employees gathering in shared spaces. Restrict use of shared spaces such as conference rooms, break rooms, and elevators by limiting occupancy or staggering use, maintaining six feet of distance between adults. Establish a minimum of 35 square feet per person when determining room capacity. Calculate only with usable space, understanding that tables and room set-up will require use of all space in the calculation. *Note: The largest area of risk is adults eating together in break rooms without face coverings.* ✓

2h. Meal Service/Nutrition

Young children are not a significant source of spread of COVID-19 . This section provides requirements and recommendations to mitigate risk of COVID-19 transmission during mealtime. Staff supervising mealtime should always wear a face covering and maintain at least 6 feet of physical distance while students are eating and wash hands or use an alcohol-based hand sanitizer after mealtime. Staff should avoid eating with one another in common areas to the greatest extent possible, as this has proven to be a significant source of spread of COVID-19 in workplaces. ✓

Required

❑ Staff serving meals and students interacting with staff at mealtimes must wear face coverings (see section 1h). *Staff must maintain 6 feet of physical distance to the greatest extent possible. If students are eating in a classroom, staff may supervise from the doorway of the classroom if feasible.* ✓

- Goal - no eating in classrooms during instructional time for students and staff
- Water is permitted
- BSH students are encouraged to eat in hallways, outside or when they return home from Hybrid day

❑ Students *and staff* must wash hands with soap and water for 20 seconds or use an alcohol-based hand sanitizer with 60-95% alcohol before meals and shall be encouraged to do so after. ✓

Recommended

⇒ Determine alternate locations (e.g., classrooms, outdoors) for eating meals *to reduce crowding in cafeterias and provide ventilation (see section 2j).*

- 9th - Commons, Courtyard or front grass
- 10th - Upper Back Gym or front grass
- 11th & 12th - Back Gym, front grass

⇒ Consider alternatives so that adults can eat independently, rather than in shared spaces.

- Classrooms for teachers
- Outside eating areas

⇒ *Young students often need help opening containers and packages. Take steps to eliminate or reduce the need to help students while they are eating.*

● *Be sure that school meals are fully accessible to students (e.g. open packages) before they are provided to them.*

● *Communicate to families that send a meal to school that they need to ensure the meal is packaged in a way that is accessible to their child, so that they may eat independently.*

2i. Transportation

Required

❑ *Face coverings for all students, applying the guidance in section 1h to transportation settings. This prevents eating while on the bus.* ✓

❑ *Take all possible actions to maximize ventilation: Dress warmly, keep vents and windows open to the greatest extent possible.* ✓

2j. Cleaning, Disinfection, and Ventilation

Required

☐ *Clean, sanitize, and disinfect frequently touched surfaces (e.g. door handles, sink handles, drinking fountains, transport vehicles) and shared objects (e.g., toys, games, art supplies) between uses multiple times per day. Maintain clean and disinfected (CDC guidance) environments, including classrooms, cafeteria settings and restrooms. Provide time and supplies for the cleaning and disinfecting of high-touch surfaces between multiple student uses, even in the same cohort. ✓*

5b. Instructional Models

All schools should be prepared for Comprehensive Distance Learning in the event of emergency closure, in response to an outbreak, or in the case where the local decision is made to operate in CDL based on advisory health metrics. ✓

5f. Instructional and Extra-Curricular Activities Requiring Additional Considerations

● **Visual and Performing Arts (Update coming soon)**

7. Mental, Social, and Emotional Health

ODE has created a new mental health toolkit as a primary resource for districts.
