

How to Upload eShare Photos

Thank you for sharing your photos with The Peak!

We are grateful for your willingness to be a part of The Peak's team by sharing your photos! Simply visit www.hjeshare.com and follow the directions below. Yearbook staff will review the photos and decide which can be used in the yearbook. If your photo(s) are selected, you will be credited in the captions.

Once on the site:

Enter Summit's School Code: **skostorm**

Fill out the form with your contact information, agree to the terms and conditions

Press "Select images for upload"

Click on "Browse for Images" and select the JPEG photo you wish to submit

Enter the students' grades, their first and last names, and in the description, please type what event or activity you are sharing. It is also helpful to include the date of the event.

Once you've completed the form, click "Upload Image" and you're done!

You will NOT receive an email confirmation of the upload, but the message will tell you the image was successfully uploaded.

Close the dialog box using the "x" in the upper right hand corner and close the browser

Note: It will take about 24 hours for the yearbook staff to be able to access the photo you uploaded

Many thanks!
