

# DO choose masks that

Have two or more layers of washable, breathable fabric

Completely cover your nose and mouth

Fit snugly against the sides of your face and don't have gaps

**Gaiters, buffs and bandanas are not allowed. Masks with valves or otherwise vent air are also not acceptable. If a student is attached to a gaiter or other unacceptable mask, they can wear it over an approved mask if they'd like. If a student does not have a proper mask, we are happy to provide one.**
