About PhotoU

Founded and led by Beth Babicz, photographer and teacher, PhotoU is a Bend-based organization teaching photography classes for teens.

PhotoU is all about encouraging creative self-expression and empowering students to become not just photographers, but storytellers.

Students learn composition techniques, visual literacy, creative storytelling skills, and how to shoot in manual mode for optimal control and creativity. Perhaps even more importantly, they develop their own aesthetic and artistic visions, and begin to see the world around them through a different lens.
